

# Satellite Flock Raising Agreement

This document outlines the terms for the consignment of animals that will be given as a satellite flock by:

\_\_\_\_\_ of \_\_\_\_\_  
(name of hatchery) (address of hatchery)

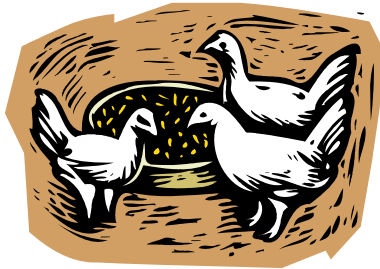

The recipient farmer will agree to the following terms prior to the acceptance of livestock.

## Recipient Farmer's Responsibilities

Each of the recipient farmers will be consigned, at no cost, lots of approximately 25 chickens each to begin the breed production project. In return the recipient farmers will be responsible for:

1. Daily care and monitoring of the chickens.
2. Purchase of appropriate feed.
3. Recordkeeping of the flock and its development, mortalities, etc.,
4. Timely response to inquiries made by the hatchery on the progress of the flock.
5. Active participation in the evaluation and breeder selection process of the chickens.

Project chickens will initially be the property of the hatchery. Once birds have been chosen by the hatchery manager as breeding stock for the project, the remaining birds will become the property of the participant farmer who cared for them. A maximum of 3 birds from each flock of 25 chickens will be chosen for breeding purposes in the program and returned to the hatchery if they chose to do so.

I, \_\_\_\_\_, have read the project outline and understand the details of the project. I agree to abide by the terms listed above and understand that failure to comply will result in the immediate removal of all livestock used for the project from my possession.
